Take control of parking facility inventory once and for all.

LPI Tracker®, the simple parking facility inventory system.

Based on industry-standard Microsoft® technology, the system utilizes any handheld or tablet running Windows® Embedded Handheld 6.5-8.1 or Windows® 8.1-10. Inventory uploads, exporting and reporting are done on standard Windows® desktops using the LPI Tracker® desktop software. Users can easily print, export or email reports that include; current inventory, exited vehicles, tracked plates, combined areas, rate stratification and more.

LPI Tracker® contains industry leading features allowing inventory mapping, routing, non-mapped input, and voice input, allowing for quicker data input.

Handheld/Tablet configuration is stress free with onboard touch screen or bluetooth keyboard options. System can be up and running in less than 1 hour via remote online assistance.

Call us at 216-534-4536 or visit http://www.lpitracker.com for more information.

Get lower total cost of ownership. Get simplicity.
